

Ramik[®] Brown

Weather-Resistant Rodenticide for Control of Mice in Orchards, Christmas Tree Plantations,
Newly Reforested Areas, Shelter Belts and Nurseries.

GUARANTEE:

Diphacinone

(2-Diphenylacetyl-1, 3-Indandione).....0.005%

Registration No.: 11670

EPA Est. No. 61282-WI-1

PEST CONTROL PRODUCTS ACT

READ THE LABEL BEFORE USING

AGRICULTURAL

Warning, contains the allergens Wheat and Soy.

Contains Calcium Propionate at 1.0% as a preservative.

AGRICULTURAL: Only to be used by certified pest control operators, farmers and persons authorized in government-approved pest control programs.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN, PETS AND LIVESTOCK. May be harmful or fatal if swallowed or absorbed through the skin. Chemical-resistant gloves must be worn when handling product and when disposing of dead rodents, unconsumed bait and empty containers. Avoid contact with eyes, skin or clothing. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Wash skin thoroughly with soap and water after handling. Wash contaminated clothing, separately from other laundry, with soap and hot water before reuse. **KEEP AWAY FROM FEED AND FOODSTUFFS.**

All handlers must wear long-sleeved shirt and long pants, shoes plus socks, and chemical-resistant gloves. In addition, persons loading pellets or bait into mechanical ground equipment, or persons loading/applying with hand-pushed or hand-held equipment, must wear a NIOSH-approved particulate-filter respirator and protective eyewear.

If swallowed, this material may reduce the clotting ability of the blood and cause bleeding.

For the control of Mice (*Microtus sp* and *Peromyscus sp*) in bearing and non-bearing orchards of tree fruits (stone and pome), Christmas tree plantations, newly reforested areas, shelter-belts and nurseries.

DIRECTIONS FOR USE: Users should remove clothing immediately if pesticide gets inside. Then wash skin thoroughly and put on clean clothing.

USE LIMITATIONS:

Bait **MUST** either be placed in tamper-resistant bait stations or in locations not accessible to children, pets or livestock. **DO NOT** place bait in areas where there is a possibility of contaminating food or surfaces that come in direct contact with food.

To ensure safe use of this product, tamper-resistant bait stations must have the following characteristics:

- constructed of high-strength material (e.g., metal or injection moulded plastic) and resistant to destruction by children and non-target animals;
- entrance designed so that children and non-target animals cannot reach the bait;
- internal structure that prevents bait from being shaken loose;
- access panel that fastens securely and locks (e.g., metal screw or padlock);
- capable of being securely fastened to a surface (e.g., nailed down); and
- clearly labelled "WARNING POISON".

FIRST AID:

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice.

If swallowed: Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

If pet or livestock poisoning is suspected, immediately contact a veterinarian.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION:

Vitamin K₁ in the form of intramuscular or subcutaneous injections, or by oral ingestion are suggested remedial treatments for anticoagulant poisoning. The severity of the case measured by establishing prolonged prothrombin times (P.T.) will determine appropriate therapy. Monitoring P.T. will indicate the necessity of repeated treatments.

ENVIRONMENTAL HAZARDS: Keep out of lakes, streams or ponds.

STORAGE:

Store in a cool, dry place away from other chemicals and food or feed. Store product not in use, in original container, in a secure location inaccessible to children and non-target animals.

DISPOSAL:

Do not reuse empty container. Dispose of unused or spoiled bait in accordance with local requirements. Follow provincial instructions for any required cleaning of the container prior to its disposal. Make the empty container unsuitable for further use. Dispose of the container in accordance with provincial requirements. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

RODENT DISPOSAL:

Dispose of dead rodents in garbage or by burying.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offense under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.
